

# Wells

- Four wells service this feedlot and are interconnected
- Well #1
  - Rebuilt in 2000
  - Pumps approximately 70 GPM
  - 40' approximate well depth
  - 5 HP submersible pump

# Wells (cont.)

- Well #2
  - Drilled in 1999
  - Pumps approximately 80 GPM
  - 120' approximate well depth
  - Has a flow control installed
  - 10 HP submersible pump
- Well #3
  - Drilled in 2002
  - Pumps approximately 230 GPM
  - 120' approximate well depth
  - Has 2 screens – one at 25-30' and one at the bottom
  - 10 HP submersible pump

# Wells (cont.)

- Well #4
  - Drilled in 2007
  - Pumps approximately 230 GPM
  - 120' approximate well depth
  - 10 HP submersible pump
- Majority of pens use Ritchie water tanks

# Wells #1 & #2

# Well #3 and Well House

# Well House and Pressure Tank
